

# ***SRBR ENGINEERS***

---

*MEP Consulting Engineers since 1959*

## **SRBR STAFF**

***Howard E. Rutherford, P.E., LEED AP***  
*President*

*Mr. Rutherford is a University of Maryland engineering graduate and completed a Masters in Engineering Management at the George Washington University. He has been a long term employee of the firm since 1970 and became principal owner in 1980 in partnership with our company founder, Raymond H. Siegel. He became a LEED certified professional in the early years of the sustainable initiative and has provided leadership for our clients through the LEED process on many projects. His overall experience bridges the gap between the traditions of the early firm to the present organization.*

*State Registrations: MD, DC, MA*

***Charles W. Ridgway, P.E., C.E.E.P.***  
*Vice President*

*Mr. Ridgway is a Johns Hopkins University engineering graduate and long term employee of the firm since 1980. Through his project and staff management experience he became a principal owner in 1993. He has remained active broadening the firm's experience and has pursued professional development courses to keep up with the latest design trends. His professional standing includes Certified Energy Efficiency Professional (CEEP) and Commissioning Agent certification through the University of Wisconsin. .*

*State Registrations: MD, NCEES  
AL, AZ, CO, DC, FL, GA, IN, KY, LA, MN, MO, NC, NY, OH, PA, SC, TE, TX, UT, VA, WV*

***Patrick T. Lange, P.E., LEED AP, CCP***  
*Director of Engineering*

*Mr. Lange is a University of Maryland Baltimore County graduate with a Bachelor of Science degree in Mechanical Engineering. He has been with SRBR since 1995. He has made great contributions to the firm during his tenure and most notably in construction administration. Mr. Lange is a Certified Commissioning Professional and he has overseen the commissioning of complex projects to include projects ranging from LEED certified up to Platinum rated. Currently as SRBR's Director of Engineering, he will usher the firm to the next level of high quality MEP projects and applications.*

*State Registrations: MD, AZ, DC*

*SRBR's Associates, Engineers and Support Staff are all long term experienced employees dedicated to high quality results from pre-design through completion of construction.*
